

UWC South East Asia has two campuses in Singapore. Both campuses offer an international education to students aged 4 to 18 years. Over 600 places become available each year as new classes are created in many grades, and others are created as students leave the college, due to the international nature of our student body.

Within each campus, our students are organised into school sections, based on the age of the students. These schools are each headed by a Principal, who is in turn supported by Vice Principals and Heads of Grade.

## UWCSEA curriculum

Our curriculum is specifically designed to support your child in embracing challenge to shape a better world, and was developed following extensive research examining best educational practice across the world. Our educational leaders continue to refine our unique UWCSEA curriculum across all five elements of the learning programme—academics, activities, outdoor education, personal and social education and service.

The UWCSEA academic curriculum is a concept-based curriculum. This means that from K1 to Grade 12, each curriculum area (or subject) has **standards**, which identify the key concepts that underpin that curriculum area. These standards are applied at all grade levels.

In turn, each standard has **conceptual understandings** that describe what a student should understand as a result of studying a particular content area. They are statements of understanding that are appropriate to a student’s developmental stage and

build towards the standard.

**Benchmarks** are then attached to each conceptual understanding. The benchmarks describe what a student should know, understand or be able to do at each stage of their learning in each subject. These benchmarks are what our teachers assess to check that students are reaching the conceptual understandings and are working towards the standards.

The Primary and Middle School curriculum builds into the High School programmes. This means that from their first years of schooling, UWCSEA prepares students for each grade, culminating in the High School programmes we offer. In the High School, the standards, conceptual understandings and benchmarks specifically take into account the requirements of external examining bodies that set the (I)GCSE and IB examinations that students sit at the end of Grade 10 and Grade 12.

a low transition rate of teachers each year.

### Scholars

The UWCSEA Scholarship Programme currently supports scholars from across the globe on both campuses, who join us in Grades 8, 9, 10 and 11. Most are enrolled in the IB Diploma in Grade 11 and 12, and all live in the boarding houses.

While scholarship students have the academic ability to meet the demands of the UWCSEA programme, they are also selected on the basis of their potential to have a positive impact on the local and global community.
